To-morrow morning at 9 o'clock the active members and subscribers to the Wednesday Afternoon Musical Club, holding identification cards, will be enfore the students of Georgetown university, a Catholic institution. Father Stanton did not call Dr. Eliot by name, but his references were so pointed that he himself told his congregation they would all know whom he meant. "Even the President Emeritus of one holding identification cards, will be en-abled to secure seats for the Sembrich concert which will be given at Jack-son's theatre. Tuesday evening! Oct. 19. This sale of seats is only for those persons who hold identification cards. The sale for the general public will not commence until Thursday morning at 9 o'clock

"Even the President Emeritus of one of our great universities, a man of 50 years' learning and experience comes out of the North and speaks as though the world might benefit by his training," said Father Stanton. "What does he do? He rides roughshod over the convictions of 1900 years; he would rob the world of hope; he would put God off the stage and hand mankind over to his own uncertain efficiency. Oh, lame and impotent conclusion! A little child is a better guide than you, discredited prophet of the North. You may preside gracefully over sessions of the Faculty; you may do well for your institution, but you are not a guide in religion.

practitioners are still in high favor with the congregation of the First Church was demonstrated yesterday when they were given what appeared an ovation by the members, notwith standing the fact that only two days before had come the Boston edict that the practitioners were not regular and were practicing in violation of the real tenets of Christian Science.

tenets of Christian Science.

If the trouble is carried to court the matter of practice and teaching in the First Church will likely be threshed out, including forms of alleged mispractice. Even those members of the court with the selection of First Church who are in accord with the action of the Boston Church ad-mit that the First Church building has been dedicated to religious uses and it might be necessary to go into court to settle the contention of Mrs. Stet-son's opponents that her teachings are not those of Christian Science and so attempt to deprive her of the use of the church.

#### TALK NO. 441 HOT WEATHER

If you notice that your eyes trouble you during hot weather it is a pretty good sign that you need glasses. A good many peo-ple who have defective eyes never know it until the symptoms are brought out by extreme heat. At other times, particularly if the health is good, the muscles are vigorous and the defect is kept under control. During hot weather the muscles are not able to continue excessive work and weak eyes are the result. If you allow the defect to progress it will eventually overcome the muscles and injure the eyes permanently. You cannot afford to take chances. You have but one pair of eyes to lose and life would not be worth living without them. If they give you trouble call and see us.
